

CDMP CERTIFICATION

Data Management

International recognition of your capability?

Certification is a your path to joining with others to further develop our profession.

"I found the training course extremely useful, not only for CDMP exam preparation but for general data management knowledge. Thoroughly enjoyed this course."

GUIDE TO THE DATA MANAGEMENT
BODY OF KNOWLEDGE

Robinson Ryan is part of an initiative to increase the certification of Australia Data Management Professionals

Renewed Certification

In 2014/15, DAMA re-organised its certification, establishing Data Management extend its independence from its Information Technology parent.

In addition, this re-organisation accommodates the changing world economic requirements.

Robinson Ryan

Robinson Ryan assists individuals and organisations with certification. As CDMP invigilators, we have experience with DAMA

International, with capabilities in expanding competency development, training and certified programs.

For individual exams, we exchange USD fee to AUD to remove exchange rates risk, and ensure all the facilities and resources are available to the examinee.

Robinson Ryan provides training to help prepare for examination, but there is no requirement to attend the course.

Students can attend the examinations if they feel confident with the material.

For further information, see the DAMA.org, CDMPAUSTRALIA.info or ROBINSONRYAN.org web sites.

Available Exams

- Data Management for Associates
- Data Management for Practitioners
- Data Governance
- Data Quality

Target Audience

The target audience is any person who is working in a data management area who wants to be recognised as a professional with international standing.

Our Invigilators

Invigilators are DAMA Australia approved and have signed ethics and privacy agreements.
